

VILLA LENNOX CAPRI

SERENDIPITY VILLAS

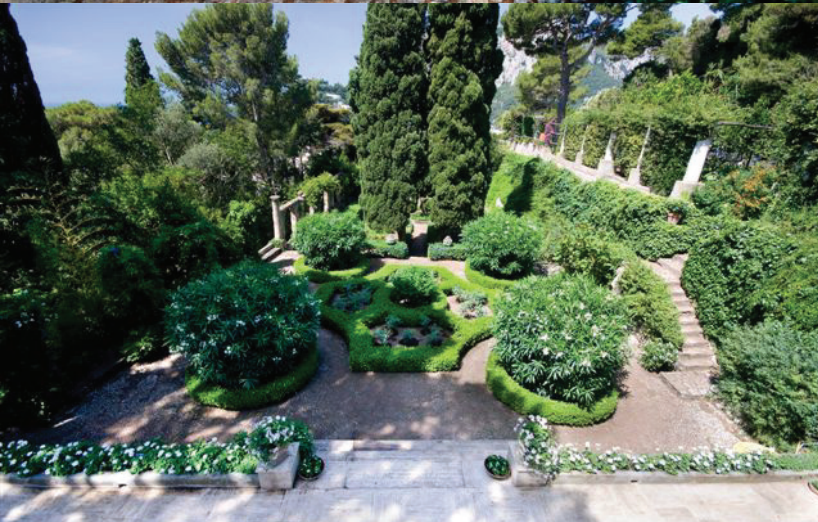

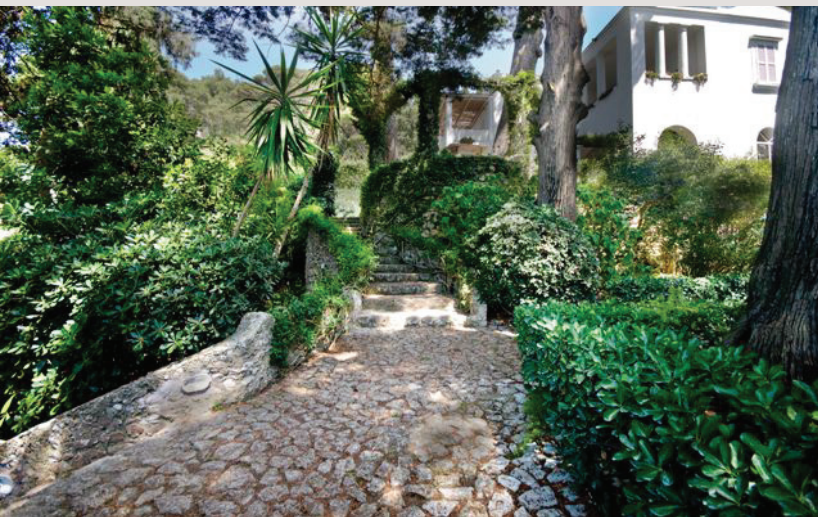

5 Bedrooms Including:

Outdoor Area 20.000 sqm

14 steps lead up to the main entrance gate and an alleyway leads through a luxurious garden among tall pine trees and cypress trees. From here, 21 steps take you up to the main terrace, in front of the villa. Right in front of the house is the Italian style garden with flower beds planted with white roses and oleander trees.

Villa Lennox came into its current owner's family in the late 19th century and its owners' elegance and exclusivity makes it the most desirably rented property on the island of Capri. It is very large for an island villa. Cool marble and old hand-made tiles on the floors, vaulted ceilings, antique furniture, and private balconies give the interiors of the villa a timeless feel. Externally, the villa's architecture has clean lines, with the old round shaped vaults painted white throughout - in a typical Caprese style. It's garden is divided onto 3 levels, the top level, after walking through a small lemon grove, hides its large pool deck (12m x 1.80m).

VILLA LENNOX CAPRI

Villa Lennox is set in a prestigious and central location. This lovely and unique property is located only a 10-minute walk from the Piazzetta (main square) and the centre of Capri. Fantastic, panoramic views over the entire town and the Bay of Marina Piccola can be enjoyed from its gardens. The property boasts water cisterns from the period dating back to Emperors Augustus and Tiberius. The area where the villa is located once gave water to the entire district of the town of Capri. The hillside is full of wells – the antique Roman water courses brought water as far as Villa Jovis, Emperor Tiberius' marvellous Palace. The villa and its gardens is a true oasis of peace at a very short distance from the glamour and bust of the Piazzetta in Capri.

In the middle of the 18th century, when the villa was owned by an English aristocratic family, a small temple in neoclassical style was built on one of the properties' most panoramic spots and became a place where its owners would come to drink afternoon tea under the shade of the pine trees.
