

SERENDIPITY VILLAS

Villa Yasmina deserves some superlatives. Located on a land of more than two hectares covered with lush vegetation of palm trees, olive and fruit trees, the villa stands on 900 sqm and accommodates 6 spacious double bedrooms with bathrooms and fireplace.

Three double bedrooms are located on the ground floor with view on the garden. Three double bedrooms are located on the upper floor. One of the upper floor bedrooms must be accessed by the outside upper floor terrace overlooking the pool.

The flamboyant architecture is inspired by Roman consuls palaces: The living and dining rooms are nestled in a high ceiling area supported by a large arch of corinthian stone columns and pleasantly opening onto the outside through large French windows.
